

## HR/Staffing.

**Staff training and development.** The Human Resources calendar for staff training and development programs is available [online](#).

**Job vacancy.** Ready for a fun challenge? Apply for the 6 month Digitisation Project Officer position (ANU 6/7) Details are [online](#).

## End of year function planning group

## Summon (Supersearch)

Summon has been updated with a range of new collections added including Edward Elgar Publishing Ltd reference books and reviews, ProQuest Ebook Central and OhioLINK Dissertations..

## Coordination groups

- Nil reports.

## ANU Press & open access

**Open access publishing trends analysis.** "What did they find? A great increase in the number of open access journals listed in DOAJ and JCR – and a fascinating trend by discipline.

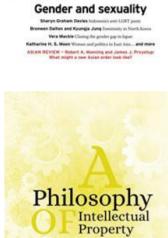

**Manifold.** The presentations from the streams in OSI 2016 are now almost all online. [» read more](#)

**Open Scholarship Initiative.** The recording for the LPC's recent webinar, "Manifold," featuring Susan Doerr (University of Minnesota Press) and Zach Davis (Cast Iron Coding) is now available. Manifold is a Mellon-funded initiative to develop an open source software for publishing digital editions. [» read more](#)

## OA readings.

- Gold Open Access Journals 2011-2015 A detailed analysis of serious open access journals as of December 31, 2015: nearly 11,000 journals in the Directory of Open Access Journals
- The Vienna Principles: A Vision for Scholarly Communication in the 21st Century From Open Access Network Austria – "Open Science has the potential to change the production and dissemination of scholarly knowledge for the better"
- Gold Open Access Journals 2011-2015: A Subject Approach. From Walt Crawford.
- Open Access the beast that no-one could – or should – control? Pre-print of Stephen Curry's book chapter which enables him to share his views on the complex landscape. Much bounded by the UK experience.

## New publications

**Impact and metrics.** Thomson Reuters have announced that the 2016 release of Journal Citation Reports is now available with more than 239 additional journals. JCR now covers more than 11,000 of the world's most highly cited, peer-review journal listings in 234 disciplines and 81 countries. [» read more](#)

## New resources:

- Triphenylmethylum-Based Multiphoton Two-Photon Absorbers: Synthesis and Characterization
- Olfour Processing by Principal Neurons of the Piriform Cortex In Vivo
- Evolutionary patterns of salt tolerance in angiosperms
- MICEP1 peptides regulate lateral organ development in the model legume, Medicago truncatula
- From falling to fear: the production and function of the nonvocal acoustic alarm of the crested pigeon, *Ocyphaps lophotes*

## Australian National Data Service

## Preparing for your data future (Canberra)

Time: Fri 22 July 9.30am-12pm  
Venue: McDonald Room, RG Menzies Library, McDonald Pl, ANU

**A seminar has been organised for research institutions, government and university research data producers and consumers to come together to hear about recent initiatives, prospects for likely developments in coming years and future opportunities in research data.**

**Speakers will include NHMRC, NCI, data.gov.au and more.**

Register

## July's Tech Talk announced

**Fri 8 July, 3pm (Brisbane, Sydney, Melbourne, Adelaide & Perth)**

Details have been announced for July's Monthly Tech Talk. The topic will be **Security in the cloud**. Speakers will include:

- David Blockow (Data to Decisions CRC)
- Richard Sinnott (University of Melbourne)

The format is a panel discussion followed by informal networking and refreshments. Monthly Tech Talks are free live events synched across various locations. They are an initiative of ANDS, Nectar, QCIF, Intersect, VicNode, eRSA and Pawsey.

Tech Talks also has its own [Meetup group](#) and page on the [ANDS website](#).

This API provides machine access to the research activity information contributed to Research Data Australia by Australia's principal research funders (grants) and Australian research institutions and agencies (projects).

Important use cases for this API are (a) lookup and validation of Grant ID's within research repository systems (b) inclusion of Australian research in global research discovery services (c) analysis of research funding and reporting outputs across multiple funders.

## IARU Librarians meeting

**Library Advisory Committee.** The Library Advisory Committee will meet in early July. Issues on the agenda include:

- Library use
- Scholarly Information Services plan – progress report
- International Alliance of Research Universities (IARU) Librarians meeting report
- Reports from committee members
- feedback from Colleges, ANUSA and PARSA

**Academic Board.** Reports and discussion included:

- Report from VC.** Brian's report included developments in relationships with government, CHL and the School of Music
- DVC (Adademic).** Mamie has presented to the Consultation on the Future of Higher Education Reform and NZ Productivity Commission and the Lumina Foundation on ANU flexis, edX and EFS
- DVC (Research).** Consultations are occurring at present on Engagement and Impact Consultation Paper, Sharper Incentives for Engagement: New research block grant arrangements for universities and Structural Review of NHMRC's grant programme – discussion paper to be released in June.
- Hot Topic: ANU Vision and Strategic Plan.** The VC reported on issues raised through the strategic vision process and working groups.
- Privacy**
  - Internships for students.
  - Commonwealth supported places.
  - Ghosting examinations.

**ANU records on the Australian National Bibliographic Database.** Modern miracle -from Wednesday (22<sup>nd</sup> June) NLA commenced deleting ANU's holdings on the database. On Monday 27 June reloading of holdings commences. Yeah, at last! Thanks to Heather, Marianna and Paul and everyone who has assisted.

**Guideline for food and drink in the library.** Thanks to Heather for managing the revision of the guideline – the revised guideline has been approved and is now [online](#).

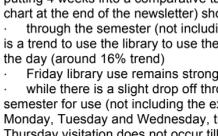

## CAUL news.

- The Communications and Policy Officer position has been filled. Harry Rolf is the successful candidate. Harry brings a background in higher education and advocacy, and considerable skill in multichannel communications. He will commence in early August.

**Menzies Library flooding.** The books in the area on level 4 where we get internal showers will be moved to the front area which was previously occupied by IT/SIG. Thanks to Marianna, Judy and the team for all the work they are doing and will do to make this happen.

**Universities Australia copyright owners.** Universities Australia held a session on this topic recently. If you are interested in accessing the recording please contact me.

**Library Budget Predictions for 2016.** I thought this report was worth noting - the tightening of budgets world-wide is having a significant impact.

**CLOCKSS.** A number of new publishers have joined CLOCKSS – you can see more details [online](#). Information about the Private LOCKSS Network for OJS journals at the Public Knowledge Project is also [online](#).

**Library use.** Thanks to Broderick for putting together statistics of library use over the semester – putting 4 weeks into a comparative tables (see the chart at the end of the newsletter) shows that:

- through the semester (not including exams) there is a trend to use the library to use the library later in the day (around 16% trend)
- Friday library use remains strong overall while there is a slight drop off through the semester for use (not including the exam week) on Monday, Tuesday and Wednesday, the drop off in Thursday visitation does not occur till later in the semester, Friday, Saturday and Sunday experience an increase in use
- 24x7 use is particularly high for Friday nights and Sundays
- we are being fully used throughout the semester – there is no room at the inn!

## Copyright.

**Sci-Hub.** You will have been reading about the service, which delivers articles in breach of publisher licences. John Bohannon released 6 months of Sci-Hub download data two months ago, and Bianca Kramer of the University of Utrecht has further analysed data from Sci-Hub downloads attributed to Utrecht using data Bastian Greshake obtained from Sci-Hub. Findings are online in a two part blog - 60% of downloads proved to be available through university subscriptions, 15% as Gold OA/otherwise free from publisher. Very interesting

**Changes in the publishing industry.** Alexander Street Press is now a part of the ProQuest family of companies.

Roxanne Missingham

## Events

**True Biographies of Nations? conference When? 1-2 July 2016**

**Where? National Library of Australia**  
**Abstract:** Come and mingle and discuss biographical issues with the general editors and staff of the national dictionaries of biography of Australia, United Kingdom, America, Ireland, Scotland, and New Zealand, as well as many local dictionary projects including the Australian Women's Register, the Biographical Dictionary of the Australian Senate, the Encyclopedia of Australian Science, AustLit, and a proposed Indigenous Australian Dictionary of Biography. Program and registration [here](#).

**Innovations in the Parliamentary Library When? 26 July 2016, 12:30-1:30 pm**

**Where? Ferguson Room, 4th Floor, National Library of Australia**

**Abstract:** The Parliamentary Library has recently recruited a Library Innovation Manager. The Parliamentary Library recognises that this is an important strategic position that has a significant information technology component. Liz Luchetti, Assistant Secretary, Library Collections and Databases Branch and Sam Spencer, Library Innovation Manager, will talk about past, present and future Library innovation and demonstrate their favourite innovative products that enhance the delivery of library services – the new parliamentary handbook data management system and the news services currently available via the mobile Web@Work app. In addition they will provide some tips on how to engage staff in the innovation process.

**Data and libraries: harnessing the possibilities When? Thursday 8th September 2016, 5.30 pm**

**Where? Conference Room, 4th Floor, National Library of Australia**

**Abstract:** The ALIA University and Research Libraries Group is very pleased to announce the topic and confirmed speakers of our annual one-day Seminar! This year our seminar topic is Data and libraries: harnessing the possibilities. We will be exploring new directions in data usage and sharing in the academic and government spheres. Add it to your diaries now!

## Readings

**Remembering, Forgetting, and When We Are No More.** Abby Smith Rumsey's interview about his new book *When we are no more: how digital memory is shaping our future* in really worth reading or listening to. It's brilliant – an example:

**Russ:** So, you've done a lot of practical work on the question of how to preserve digital content with the Library of Congress, the National Science Foundation Task Force. But you open your book with a very non-digital piece of America's heritage, which is the Declaration of Independence. What did you learn from how people react to seeing that artifact?  
**Rumsey:** Well, at the time—it was 1997 and I was working at the Library of Congress, which holds the rough draft of the Declaration of Independence. As you may know, there's an official document of the Declaration of Independence and the Constitution on permanent display at the National Archives. And that's what most tourists and most people see, when they think of the Declaration of Independence and the Constitution. But naturally those documents weren't born whole out of the heads of the Founders. They were actually crafted by men who were working against time, in the case of the Declaration of Independence, to actually come out with a statement in a short period of time that would express something that turns out in retrospect we understand to be completely revolutionary in ideas. The rough draft of the Declaration of Independence is at the Library of Congress, and we were displaying it during this exhibition we put together in 1997. It's in four pages, and it's hand-written; and it's in Thomas Jefferson's handwriting. So, there was a committee put together to draft this, and naturally they made the youngest and probably the most eloquent of their members, Thomas Jefferson, draft this. And he wrote on it, and you can see, it's very heavily marked up by other committee members, who included Benjamin Franklin and John Adams. And when we were showing these documents to tourists and other people visiting, and we put the four pages, the originals, in a case behind bulletproof glass—so this big, kind of ark-like thing that it was encased in—people would look for what they *know* on the first page. They look for this phrase, "We hold these truths to be self-evident, that all men are created equal." And it's actually quite startling, but that's not what Jefferson wrote. What he wrote was that the truths are sacred and undeniable. And those words are inked out in black ink by Ben Franklin, who then put in the words that we know by today. And it so startled people that it opens up the whole story about how decisions are made in the political environment. And so the whole process of democracy can be unpacked by people just looking at that single artifact. And what struck me about that was the power of the artifact itself—the physical presence. And also that it reveals something about the nature of democracy itself, the rough and tumble of negotiation."

**Library competencies.** Released by the Task Force on Librarians' Competencies in Support of E-Research and Scholarly Communication

A joint task force has released two profiles of competencies that library professionals need in order to support new roles—one profile for [research data management](#) and the other for [scholarly communication and open access](#). The profiles will help library managers identify skills gaps in their institutions, form the basis of job descriptions, enable professionals to carry out self-assessments, and act as a foundation for the development of training programs [» read more](#)

**Barriers to discovery of and access to scientific literature in the corporate sector.** Roger C. Schonfeld explores this topic with a study with 36 responses. "Every librarian and other corporate information professional interviewed expressed the conviction that they had to be able to support essentially all possible starting points for their researchers." Discovering is seen as improving, access is not. [» read more](#)

**Passion trumps pay: a study of the future skills requirements of information professionals in galleries, libraries, archives and museums in Australia.** There were four participants in the galleries focus group, six in the museum focus group, and eight in each of the libraries and archives focus group. They were asked for opinions, there is no data on comparable pay. Nuff said. [» read more](#)

**Internet "Net" neutrality.** A very important decision in the US Appeals Court last week – ARL comments "The first three Open Internet Order rules ensure that Internet providers cannot create "fast lanes" and "slow lanes" that would allow network operators to give priority to entertainment or other commercial content over education, civic engagement, access to information, or other services". [» read more](#)

**Scholarly Communication and the Dilemma of Collective Action Too Much.** John Wenzler in this e-print article from C&RL takes a critical eye to library purchasing and OA "universal and free access to scholarly research is an admirable goal, current attempts to achieve OA are inadequate because they also fail to resolve the fundamental dilemma of collective action faced by the academic community". He expands to suggest that we need to aspire to "actually take over the services provided by publishers". Do you agree? [» read more](#)

**Best Practices in Peer Review.** The Association of American University Presses (AAUP) has released Best Practices in Peer Review, an AAUP Handbook. The handbook articulates a set of practices that comprise a rigorous process of peer review for scholarly monographs. [» read more](#)

**Publication Agreements.** From the Library Publishing Coalition – hear Kevin Smith, Dean of Libraries at the University of Kansas on this important topic. [» read more](#)

**At the heart of the university.** "Domnic Broadhurst at University of Manchester Library discusses – the latest trends in higher education libraries – short and topical – thanks for this reference Heather. [» read more](#)

**UK Survey of Academics.** Ithaka S+R/Jisc/RLUK's second survey of UK Academics. Key findings:

- Respondents from RLUK institutions and non-RLUK institutions access and use different materials for research and teaching.
- Academics' preference for using scholarly monographs in various ways in print format rather than digital format has only increased since the survey.
- Since 2012, there has been a substantial increase in the share of academics that shape their research outputs and publication choices to match the criteria they perceive for success in tenure and promotion processes.
- There is growing interest from academics in reaching audiences outside of those in academia with their research.

**Research Data Curation Bibliography. Version 6 is out now.** [» read more](#)

**Top trends from ARL.** The 2016 report discusses nine trends, including altmetrics, digital scholarship, research data services, collection assessment trends and content provider mergers.. [» read more](#)

**University of Florida Libraries Support Digital Scholarship. ARL's fourth profile in this series.** [» read more](#)
