

TODAY IS ALIA DAY!

SIS News

CONTINUED WORKING IN THE MOVE TO REMOTE WORK AND STUDY

Dear SIS Staff

Thank you for another week of remote working.

The Return to work plan has been circulated to all staff and will be our guide in coming weeks.

Just a couple of key points from it (and the previous weeks communication).

Please be reminded that sensible behaviours and precautions should be undertaken to ensure social distancing, hygiene and a safe workplace.

Please to be considerate of others – if someone are walking down a corridor and you is coming towards them you are encouraged to please make an adjustment to enable social distancing to be met

Do return the equipment you took in good working order

If you are unwell stay home and take sick leave

Everyone is responsible for keeping their desk and computer/keyboard./mouse etc clean.

I ask you to read the return to work information, notification process for COVID 19 and information on support that is on the ANU COVID 19 website.

The fuller information is in the return to work plan.

Keep safe.

Roxanne

SIS 2019 annual report. Now online.

Flood Advisory Committee. The committee met last week and provide advice on many matters based on a range of detailed papers provided to them.

Library Advisory Committee. The committee meets next week and detailed papers have been provided to support discussion on a wide range of issues.

Teaching and Learning Committee.

The committee met this week and topics included:

- COVID 19 related issues
Remotely invigilated exams –ongoing support
Grading Scheme
Teaching Continuity Working Group Update
Technology Enhanced Learning Reference Group

Privacy. The slide sets from the recent Privacy training series are now available online under the heading ANU Privacy training 2020. They cover:

- GDPR
Human resources
Marketing, Alumni and advancement activities

Zoom. Zoom v5.0.3 is now available from AARNet and staff will need to ensure they have upgraded to the latest version as, from 30 May 2020, only Zoom clients and Zoom rooms on version 5.0 or later will be able to join Zoom Meetings from 30 May 2020. Further information is available from the link Zoom 5.0 update.

CAUL.

- Harry Rolf is leaving CAUL to be off to Senior Policy Analyst at the Australian Academy of Technology and Engineering (ATSE)

Copyright.

- Australian Library Copyright Committee's Copyright and Remote Supply webinar is now available to watch online
International film archives are streaming up a storm during lockdown. Australia's movie trove isn't even online by Victoria Duckett – article online
Post-Pandemic Copyright - Rebecca Giblin presentation to Canada's ABC Copyright Conference 2020 is online

Records guidelines for information related to COVID 19. The National Archives has developed implementation guidelines to assist Australian Government agencies to sentence records arising from administrative activities related to the response to the COVID-19 outbreak. The guidelines list records that may be created by agencies and provides the relevant disposal classes from AFDA Express Version 2.

Open Research

Introducing CiteScore, Our Journal's The rise of preprints in chemistry.

Explores faster dissemination of ideas, increased visibility. The chemistry community as a whole came relatively late to preprinting. Preprints have made significant inroads into chemistry, but worries are occasionally expressed, suggesting that the act of preprinting an article will, despite assurances on journal websites, prejudice its chances of appearing in what are considered by some researchers to be high-profile venues for publication.

Keeping up to date

Librarians recruited as COVID-19 hunters.

Timothy Inklebarger writes: "Gathering information, educating patrons, hunting down hard-to-find items—it's all part of the everyday work of librarians. That's why some cities are turning to them to serve on the front lines of the coronavirus pandemic as so-called contact tracers. The work entails searching for individuals believed to have been exposed to someone infected with COVID-19, warning them that they might have contracted the virus and encouraging them to self-quarantine."
