COVID 19

DON'T LET

# COMPLACENCY SET US BACK ( ACT For updates, visit F 0 Outdoor spaces can now support a density of one person per two square metres (indoor spaces remain at one per four square metres). All gatherings can increase to 200

square metres of usable space can be maintained in indoor spaces, and one person per two square metres of usable space in outdoor spaces **COVID-19 inspections – report from** Heather Jenks. A COVID19 inspection of

Wednesday 19th October. A very thorough

inspection was worked through, the basic 10 questions which are filled in each week for

each area of SIS are used for this inspection

the Chifley Library was carried out on

people, where one person per four

making the inspection take around an hour to complete, the questions are expanded out to cover facilities for staff, students, academics, researchers and visitors using the building. The Inspector noted that he could see that Library staff were trying their best to ensure that the 1.5 metres for each individual was adhered to, noting that he found notices on windowsills and on the floor when Library users had decided to ignore the instructions. The Inspector raised only one issue of concern, which will become an action in FigTree, he has asked that signs be created for the cleaning stations, with additional signs dotted about telling library users that there are cleaning products available for library users to utilise

in order to clean the study space or

cleaners (the Pink Team) who are all providing a very vital service. My thanks go

computer that they claim as their own work

the cleaning, the fogging and the additional

to the Chifley team for the work that they do

area for a few hours. I was also asked about

every day to ensure that their own workspace is safe and that it is safe for library users within this building. Next Wednesday (28th) afternoon two further COVID19 inspections will take place in the Menzies Library and the Law Library. Recent research.
