

JB Chifley Library display for National Reconciliation Week.

## News

### Yumma Darruwa Ngunnawal

Welcome to Ngunnawal country. This fortnight I would like us to reflect on the word **bunima** which mean *to blow like the wind* in Ngunnawal language.

As the cold winds have come across the campus this week, we seek to keep students warm and supported. Exams have now started with students needing all the support we can provide.

Our [extended opening hours for exams](#) are up and running with the Chifley, Hancock and Law libraries remaining open 24x7. I am grateful to the Security staff who keep the students safe through the nights and early mornings of study. By keeping the warm wind running in the libraries we provide spaces and services that enable safe and supported study. Thank you to all staff who are helping students at this time.

For National Reconciliation Week we have:

- Launched a display in the JB Chifley Library showcasing material from the collection.
- Promoted access to an extensive and authoritative collection of eBooks through the [ProQuest Australian Indigenous Collection](#).
- Highlighted the recently acquired videos from Ronin Films that are part of the Australian Institute of

## ANU Press and open access

### Infrastructure is key to supporting the sector's shift towards open access for monographs

Caroline Mackay has written a [blogpost](#) published on the JISC blog on issues for university libraries from the new policy – she begins “In a little more than 18 months, the new UK Research and Innovation (UKRI) open access (OA) policy for monographs, book chapters and edited collections will take effect. Jisc is considering the implications for this policy and how to support the sector through this in an affordable way.”

### Farewell Emily!

Emily Tinker will be leaving us for DFAT at the end of the month. We wish her the very best in this next step in her career.

### APA establishes Diversity and Inclusion Working Group

The Australian Publishers Association (APA) board has prioritised work on diversity and inclusion. They have [announced a working group](#)

Aboriginal and Torres Strait Islander Studies ([AIATSIS](#)) collection.

- Launched an [online ANU Library guide](#) that provides an introduction to the scholarly resources available at the ANU Library about Aboriginal and Torres Strait Islander peoples, histories, and cultures.

Thank you so much Jason, Broderick, Patrick and Michelle. Thank you also to the Tjabal Centre and First Nations Portfolio for assisting.

## COVID-19 news

### ANU update

Use of the CheckIn CBR app remains strongly recommended and mask wearing remains mandated on the campus for a range of activities. [Please read all the messages from the University about COVID-19.](#)

**Please remember to isolate and get tested if you feel unwell.**

If you test positive to COVID-19, please:

1. Register your positive result with ACT Health using this online form, or with the state/territory health authority where you are located.
2. Alert the University through this online form.
3. Apply for personal leave.
4. Isolate for at least seven days after the day you test positive.

### Campus Alert Level

Our [COVID-19 campus alert level](#) remains MEDIUM risk.

## Copyright

- The big news this week is that the Copyright Tribunal handed down the decision on the [Copyright Agency Limited v University of Adelaide \[2022\] ACopyT 2](#) – to cut to the chase “I therefore determine that the global equitable remuneration for 2019 is \$35,151,096.42”.
- Copyright has [moved](#) to the Attorney General's portfolio.
- [Justice Breyer, Copyright, and Libraries](#): a paper by Jonathan Band. Band reviews Breyer's majority opinion in *Kirtsaeng v. Wiley* (2013), which clarified that the first-sale doctrine applied to copies manufactured abroad, and the dissenting opinion Breyer wrote in *Golan v. Holder* (2012), in which the associate justice drew heavily on amicus briefs filed by the library

to lead industry efforts in this space under the leadership of Astrid Browne from Hardie Grant.

## Springer Nature sees 40% growth for gold OA research in 2021

Springer Nature's Transformative Journals published 40% more gold Open Access (OA) research articles in 2021 than the year before, [according to new data released by the company.](#)

## Liverpool University Press announces the first Open Access books funded entirely by library membership of *Opening the Future*

The [Opening the Future library membership programme](#) has reached the threshold needed to begin funding its first two titles, made fully open access through subscribing libraries' memberships.

It is a collaboration between Liverpool University Press and COPIM, with support from LYRISIS and Jisc, and was launched in 2021 to harness the power of collective library funding to support the open access publication of monographs.

The first two books that will be published from the initiative are *Empire Found: Racial Identities and Coloniality in Twenty-First Century Portuguese Popular Cultures* by Daniel F. Silva, Associate Professor of Luso-Hispanic Studies and Director of Black Studies at Middlebury College, and *Football and Nation Building in Columbia* by Peter J. Watson, an early career Teaching Fellow at the University of Leeds.

These two opinions, Band concludes, “reflect a deep understanding of the impact of copyright on libraries, an appreciation for the historic mission of libraries in promoting cultural heritage and making information accessible to the public, and an effort to apply the copyright law in a manner that does not interfere with this mission.”

### Desirable Characteristics of Data Repositories for Federally Funded Research

The National Science and Technology Council issued this [report](#) last week. It contains detailed information including the responses to an Office of Science and Technology Policy request for comments in early 2020, and views from the National Institutes of Health on FAIR data and the roles of specialist vs. generalist repositories.

### ORCID Year in Review

The 2021 ORCID Year in Review highlights achievements over the past 12 months. It is now available to download on the [AAF website](#).

### ORCID dashboard

In late 2021, the reporting dashboard has been updated to include greater functionality. The dashboard provides a deeper look into affiliation data for consortium members, which is more accurate than email domain data that was used previously. ORCID contacts for member organisations should already have access to the reporting dashboard. More information on the reporting dashboard can be found on the [ORCID blog](#).

## Feedback

Last week I spent several days at the Menzies Library, using the wonderful resources there in connection with my research for a monograph on Japanese translation history. I am writing to express my appreciation for the invaluable Menzies East Asian collection and all the help I received from the librarian Miyuki Matthews.

Until last year I worked at an American university and I was able to obtain books through interlibrary loan. Even so, there were quite a few Japanese books that simply were not available at any American library. Since I am originally from Queensland and regularly visit family in Canberra, I've been fortunate over the years to be able to find many of these unavailable books at ANU. Last week allowed me to access works that would otherwise require a costly trip to the National Diet Library in Japan, which is far from user-friendly. It was a joy, then, to be able to fill in these gaps in my reading last week, thanks to the world-class collection at the Menzies Library.

Miyuki Matthews went above and beyond duty in assisting me in accessing these resources. I am extremely grateful for all her help and for the ability to access the Japanese resources in the Menzies Library, so I wanted to express my appreciation. I look forward to my next visit to this outstanding collection.

## Keeping up to date

### Narrative Expansions: Interpreting Decolonisation in Academic Libraries

This new book edited by Jess Crilly and Regina Everitt, has international perspective that includes authors from Africa, the US and Indigenous Métis librarians from Canada among others, is a brilliant effort to unite the thinking behind the movements to decolonise the curriculum. It illustrates the dynamic and continuous efforts that academic libraries and archives are undertaking worldwide to interpret decolonisation for their own situations and contexts.

### **Nectar Goes Elastic**

Australian researchers using the ARDC Nectar Research Cloud now have more flexibility and access to new services thanks to a change in the way compute resources are allocated. Resources on Nectar are now allocated using a quota that is based on what researchers actually use, rather than a maximum limit on what they could use. This new model is similar to how other clouds and high performance computing services allocate resources.

### **Custodians and Midwives**

The National Library of Australia (NLA) and the ANU School of Cybernetics began a collaboration in 2021 to research and analyse AI and emerging technologies.

The library, as an idea, a place, and a cybernetic system, has always been an investment in, and a vision about, the future.

[Custodians and Midwives](#) is the outcome of this collaboration. Researchers from the School of Cybernetics started with the premise that the Library is a cybernetic system – a system that has produced and been produced by relationships between technological, ecological, and cultural forces.
