2021 REFERENCE ENQUIRIES BY SUBJECT

Data, Records and FOI

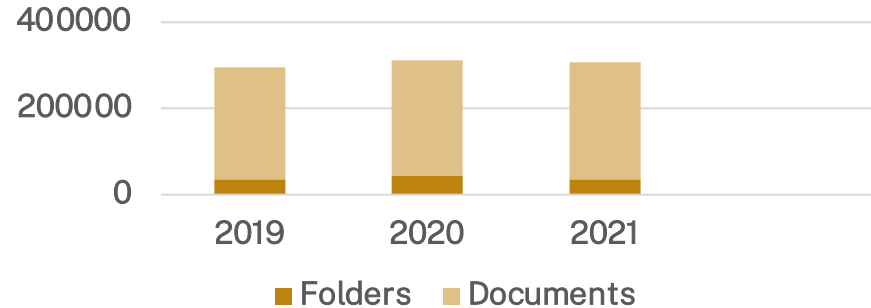

- ANAO Performance Audit recommendation:

The Australian National University should take the necessary steps to ensure that its information and records management practices meet the information management standards issued by the National Archives of Australia, mandate the use of its Electronic Records Management System and update its supporting policies and procedures.

Program of work to implement is underway

- ERMS-SharePoint integration tool implemented. Uptake for central and College committees, Research School of Chemistry WHS records
- 2021 - Largest number of FOI requests received in a year – over 120 including personal information requests

ERMS records created

FOI cases
